Report of the
DIVISION OF IMMIGRATION AND AMERICANIZATION
for the year
July 1, 1971 to June 30, 1972

The fifty-fifth year of service of the Division of Immigration and Americanization, ending June 30, 1972, recorded a total of 51,062 services rendered to 22,988 individuals. The total services were 100 or less than last year but there was an increase in services in the Boston office. Boston had 28,965 services to 10,447 individuals - Fall River 5,266 to 2,774 applicants - Lawrence 7591 to 3,971 persons - Springfield 3,630 services to 2,470 individuals and Worcester 5,620 services to 3,326. The fulfillment of our functions "to bring into sympathetic and mutually helpful relations the Commonwealth and its residents of foreign origin, etc." brought persons with very various problems to the Division offices. Predominant were problems of immigration, reunion of family, as well as complicated matters of citizenship and assimilation of newcomers into new environment.

Our program takes in many aspects of social work with knowledge of community resources and technicalities of Immigration and Naturalization laws and procedures. Assisting the newcomers in adjustment and assimilation, we have made referrals to schools, classes for English as well as for a number who sought higher education or vocational training resources. Social workers with knowledge of a foreign language are better able to understand the problems presented. Increase of our Spanish speaking clientele keeps busy our two Spanish speaking secretaries in interpretations and translations of documents, required in the work.

About every phase of immigrant status has come to our attention in assisting sponsors of aliens and the aliens themselves, who seek our help. Not only are we immigration law consultants but as social workers have to be concerned and assist with solutions of many problems of assimilation and family situation.

Communities and Ethnic Groups

Our five offices have clients from practically every town and city of the Commonwealth with the largest numbers serviced in the cities of location of our offices, Boston, Fall River, Lawrence, Springfield, and Worcester.

The largest group serviced were the Portuguese making up one tenth of the total services or 5,234 - Greek born 4,068 - Italy 3,919 - Cubans - 3,406, U. S. native 3,072 - Canada 2,946 - Poland 2,510 - Jamaica 2,360 - Ireland 2,121 - China 1,546 - Dominican Republic 1,544 - Trinidad 1,219 and Haiti 1,090.

Immigrants and Problems

The Act of October 3, 1965, eliminating quotas by national origin, established that 170,000 immigrants were permitted to come from Eastern Hemisphere and as of July 1, 1968, 120,000 from the Western Hemisphere. The vast difference, however, in allocation of priorities has created many problems for those in Western Hemisphere categories.

Within the annual limit of 170,000, no more than 20,000 visas were available to any one country and no more than 200 visas to dependent areas, such as Cape Verde Islands under Portuguese quota and the several islands under British quota. Preferences in this category provided for reunion of families whether sponsor was citizen or legally resident alien, as well as other preferences for professional or skilled workers.

We have assisted many recently arriving immigrants, sponsored by a citizen son or daughter, who had to leave behind an adult unmarried son or daughter. A number of these immigrants come to the office within a week of their entry to petition for approval of visa issuance. Because preference status may be accorded such unmarried adult children, their emigration to the United States took only a matter of months.

In the Western Hemisphere category, no preferences are allocated. Those first come are first recorded so that spouses of legally resident aliens, professionals, and skilled workers are recorded in turn when found qualified. As a result now the backlog waiting their turn to be reached in the quota is over sixteen months. Adult children of legally resident aliens, unlike in the Eastern Hemisphere, are subject to obtaining labor clearances in order to qualify for registration for issuance of visa.

Spouses, parents, and minor children of United States citizens, however, are in the nonquota status, even if born in the Western Hemisphere.

In a number of cases where the mother had come to work in the United States under a domestic live-in contract and now has established her own home, she had been able to have several children join her here but a son who had turned twenty-one in the meantime was subject to regulations requiring labor clearances which are not being issued now except in very few categories; and this family is separated.

Legislation recommending preferential status for relatives in the Western Hemisphere, like those in the Eastern Hemisphere, has been introduced in Congress but no final action was taken on this or the many other bills introduced for enactment.

GRAND TOTAL 188,011

Labor Clearances

Because of the prevalent unemployment in our State and in the United States for the past year, it has been impossible for new immigrants without immediate family here to come to the United States. The requirement of an approved labor clearance providing that the United States would admit aliens with skills of which there was a shortage here is not the situation now. Labor certifications have shown decrease of immigration from Canada, Central and South America.

The increase in statistics of persons from the West Indies, Jamaica, Haiti, Trinidad, and the Dominican Republic initiated with the female household workers who came to the United States on a domestic live-in contract are now able to make papers for children and spouses.

Illegally Resident Aliens

The subject of aliens illegally in the United States has been the study of immigration and judiciary committees in a major number of cities and resulted in introduction of legislation in efforts to stop this condition.

Numerous times, the situation has come to light that a visitor from one of the Caribbean or West Indian countries, having overstayed the time granted for his visit in the United States, now married to a citizen and perhaps having one child with another expected shortly, seeks our assistance. The U. S. Immigration and Naturalization Service has been most considerate in putting such alien "under docket control" and granting him extension of stay while the process of qualifying for an immigrant visa at nearby Canada is worked out. Because of the many applicants at the consulates, it has taken months and months before an appointment is given the alien and he travels to Canada for a day or so to get his immigrant visa.

A number of persons born in the Western Hemisphere, however, had to return to their native country for such application, not being spouses of citizens of the United States. Not many, but some have not accepted the first edict of the U. S. Immigration "to leave the United States voluntarily" and, subsequent hearings according them voluntary departure or "deportation", they departed but not with too many hopes of immediate return, until the labor situation has improved.

The Fiancee Law

The so-called fiancee law, permitting a citizen of the United States to make petition and have join him in the United States his fiancee whom he will marry within ninety days after her entry into the United States, still has benefited a number of veterans of Vietnam service who sent for their fiancees; a young lady who had her fiance come from England; several Greek born girls; and Cape Verde Islands applicants, both male and female. Several of the Vietnamese girls came with the children of the

soldiers who after marriage could claim U. S. citizenship for their children, applying for certificates of citizenship. One Portuguese born young man decided he did not want to marry his fiancée and returned home, unwed.

Change of Status in United States

For 626 persons in the United States on temporary status, we initiated applications to change status to permanent residents; most of them had entered the United States as visitors having a citizen brother or sister who could make petition for them, establishing preference so that a quota number was available. A goodly number of them were Irish born. They were able to adjust to permanent residents after required procedures were completed.

The availability of the nonpreference quota made it possible for some Greek born mothers, visiting alien children, to apply for such adjustment.

Cuban born applicants for whom we initiated the applications were 463, many of them with just the two years completed in the United States and others in this country since early arrival of 1962. Many realize the length of time required before their turns are reached for the establishment of permanent residence and alien registration card issuance. For several applicants the delay in applying for residence proved costly because one with a responsible job requiring travel abroad could not fulfill this requirement without having residence and another - a teacher in public schools - could no longer be in status quo unless he had permanent residence status.

Then there were some who had entered as visitors and now desired to change to students. For several denied initially, appeals had to be made.

Our social workers attend hearings at the U. S. Immigration and Naturalization Service in cases where it is deemed necessary. Our workers attended 273 hearings with their clients last year.

Cubans

Under the alien registration law, in January, 1972, 4707 Cubans registered in Massachusetts. Many now with the required years of permanent residence are applying for U. S. citizenship and we have assisted them in filling the applications.

Now that flights bringing the Cubans from the island have ceased, many relatives of our applicants have gone to Spain in hopes of coming to the United States. Parents of permanently resident aliens as well as those in parolee status have been able to join their children in the United States on parolee or some even on permanent residence status. However, brothers, sisters, and other close relatives subject to regular immigration laws have been unable to get on lists to await their turns in

quota because of inability to get labor clearances in the United States. In one case, a sister, now a citizen of the United States, whose brother was registered as a skilled worker but is now subject to obtaining labor clearances, anxiously inquires regularly regarding any change in proposed immigration laws or the possible issuance of labor clearances.

On the whole, the group of Cubans have successfully integrated, many able to be working at their vocations as professionals, accountants and teachers, office workers, etc. Some of the elderly are recipients of public welfare. They, like many new immigrants, are a most mobile group and changes of address are frequent, even moving to Florida and back to Massachusetts for some.

Newcomers

We received 13,912 names of new immigrants destined to Massachusetts during the past year. The actual number is about 15,000 as it has averaged at least during the past ten years, shown by the U. S. Immigration report of 1971. A total of 370,478 immigrants giving the State of their intended residence Massachusetts were admitted during that period. We rank sixth among the States and totals for the past ten years show:

	<u>1962-1971</u>	<u>1971</u>	<u>1970</u>	<u>1969</u>
New York	816,363	92,478	97,821	14,103
California	716,713	69,825	74,268	71,183
New Jersey	187,531	23,593	23,699	18,935
Illinois	189,864	23,254	20,910	20,420
Texas	163,441	20,210	18,264	17,739
Massachusetts	151,974	15,760	15,212	19,043
Florida	205,389	17,438	13,902	13,783
	<u>1968</u>	<u>1967</u>	<u>1966</u>	<u>1965-1962</u>
New York	97,802	86,354	77,279	270,226
California	72,371	69,150	73,073	286,843
New Jersey	27,712	18,804	17,667	57,121
Illinois	24,901	20,270	18,158	61,951
Texas	17,335	14,349	13,742	62,802
Massachusetts	19,339	18,246	15,120	49,254
Florida	69,586	22,748	14,028	53,904

We continue to send a welcome letter to each adult new arrival, informing him of our services and certain requirements under immigration laws. We had contact with 2,972 and inquiries were for information on schools for English and further education, draft board addresses and requirements, job opportunities, as well as matters of immigration and naturalization classification.

Lack of English plagues the new arrival and for many the first jobs are those where minimal knowledge of English is required. Even with knowledge of English, some professionals as engineers, accountants, have

accepted jobs for which they were "over-qualified", pending better opportunities. Two engineers claimed inability to get any jobs at which they could work; one went to Algeria and another returned to France.

At the end of this report, we have noted the cities of destination of the 13,912 new immigrants' names we received for the year ending June 30, 1972.

We should mention Russian assurances made in English and Russian which we assist persons in doing to have relatives come from U. S. S. R., most of them for visits. Of the 85 made, we estimate about half the beneficiaries have been successful in getting permits to come to the United States. Three families arrived from Erevan via Italy and were admitted as refugees.

Assurances in Polish with which we assisted 197 applicants have better success although for a number, the passport and permission to depart from Poland have been withheld - some for reasons of profession and reluctance of the Government to lose such skills.

Getting Naturalized or Citizenship Proof

In the past ten years, 44,970 persons were naturalized in Massachusetts, 3228 the year ending June 30, 1972. Those from Canada numbered 427 - Italy 352 - Ireland 240 - United Kingdom 226 - Germany 177 - Greece 170 - Cuba 166, Poland 119, etc.

In our five offices, we filled 1729 applications for such naturalization, 67 applications for children of citizens applying for naturalization, and 245 applications to get proof of citizenship derived through parents were initiated. Most of the applicants have been processed as record of entry is on file, but for twenty persons the fact of residence had to be established by proof of continuous residence in the United States since 1924. In such instances, we write schools, employers, city clerks for listings to get proof of residence, etc.

Applications for certificates of citizenship for a number of newly arrived citizens from Cape Verde Islands were initiated. In these instances, they were the children of a native born woman who had lived abroad since childhood but had rights of citizenship to give her children; and they arrived in the United States on U. S. passports - American citizens with no knowledge of English.

We distribute free our booklet "The Constitution of the United States of America and Questions and Answers in Preparation for Naturalization Examination". Our annual supply of 10,000 barely lasts the year as each applicant for citizenship at our offices is given one and we distribute them to classes and civic groups.

Need for Legislation

Except for a minor change in requirements of residence for citizens who derive such right through a parent, no immigration bills were enacted in Congress. Removing discriminatory aspects for relatives so that preferences may be accorded those in the Western Hemisphere should be of primary concern.

Reports from Branch Offices

FALL RIVER

The Fall River Office completed the fiscal year July 1, 1971 to June 30, 1972 with a total of 5,256 services rendered to 2774 clients. These clients are natives and citizens of fifty-two countries, coming from thirty-three separate localities in Southeastern Massachusetts. Heading the list of nationalities were natives of Portugal. Following this ethnic group were citizens of the United States; natives of the Philippines; China; Canada; and Brazil in that order. These ethnic groups constituted the majority of the workload.

Fall River and New Bedford are the communities from which the majority of clients sought services of this office. These are the largest cities in our District; the location of the office is in Fall River. We weekly visit New Bedford to provide services.

The usual bulk of the work is numerous inquiries concerning immigration; citizenship; newcomer problems; foreign students and visitors on temporary stay. Applications for temporary stay have increased over the past years due to more and more relatives visiting their families who are now permanent resident aliens, having immigrated into this area over the past several years.

The backlog of third preference applicants and the unavailability of labor certifications for sixth preference immigrants have decreased immigration somewhat in this category.

Immigration of the family units is continuing due to the old influx of immigrants who are now applying or have become United States citizens. These new citizens are now sending for their parents, married brothers and sisters and their children.

Naturalization has increased and there were 297 applications completed at this office, fifty-one more than the previous fiscal year. Applications for adjustment of status have been relatively constant.

Letters of welcome were sent new arrivals, informing them of the availability of services relative to citizenship; immigration; social security; draft registration and other problems concerning their assimilation in the United States. Letters with the names of applicants for United States citizenship were sent to the Directors of Adult Education in New Bedford and Fall River in order that they may assist the applicants and prepare them for naturalization examination.

The Fiancee Act has fallen far below expectations. It was placed into effect to assist recently discharged servicemen and others to marry their fiance or fiancée within the ninety days after arrival. Very few persons in the Southeastern Massachusetts area have taken advantage of this Act.

This Agency continues to enjoy the cooperation of municipal, county, state, federal and private agencies.

LAWRENCE

The Lawrence District Office completed the fiscal year ending June 30, 1972 with a total of 7591 services rendered to 3971 clients. This is a decrease of 486 services as compared to the previous year. We feel this decrease is due to the severe limitations imposed on immigration by Labor Department restrictions, as well as the long waiting period involved in Western Hemisphere immigration.

Practically the entire gamut of emotions was exhibited by our clients during the past year. Depending on the circumstances, they would express sadness, joy, humor, frustration, apprehension, anger, resignation or satisfaction. One of the saddest cases we had involved a teen-age boy brought to the United States by his parents for medical treatment. His illness was eventually diagnosed as malignant and he was given six months to live. His two sisters back home frantically tried to obtain temporary visas to visit their dying brother, but the Consul could not issue them visas because they were unable to prove compelling ties in their own country. Because of the compassionate factors involved, the Consul finally stated that he would issue them visas, provided \$2000 in bonds were posted. Due, however, to the tremendous medical expenses for the boy, the family was unable to raise the money. Through the combined efforts of this office, the Lawrence office of the International Institute, the Red Cross, and the offices of Senators Kennedy and Brooke and Congressman Morse, the Lawrence daily newspaper learned about the family's plight. Within two days, a public appeal raised the money, not only for the bonds but for the girls' round-trip tickets as well. The Federal Immigration Office in Boston was most cooperative in cabling the Consul that the bonds had been posted. The Consul immediately sent an Embassy limousine to the girls' home to take them to the Embassy. They were issued visas then were driven to the airport by an Embassy chauffeur. They are now here and are visiting with their brother in his last days.

Frustration was an emotion frequently exhibited by clients - especially by those unable to bring prospective employees to this country because of the Labor Department restrictions, and by those with Western Hemisphere relatives who are experiencing 1½ years' waiting period before their visa applications can be processed. Apprehension was evident in the minds of several of our clients, such as those nonimmigrants wondering if their extension requests would be granted.

It is well known that there are numerous illegal aliens here. We frequently received calls from angry United States citizens, complaining that illegal aliens were taking away their jobs. Such calls, of course, were all referred to the Federal Immigration Service in Boston.

Many aliens attempting to adjust their status to permanent residence finally realized that there was no section of the law under which they could qualify. They became resigned to this fact and sadly returned to their own countries. On the other hand, successfully completing the cases of the persons we were able to assist gave us a feeling of satisfaction in accomplishment.

In the course of serving our clients, much effort has to be expended in their behalf. We must always be certain that the technical advice is correct, will best serve the client and will not contravene the immigration laws and regulations. We must be careful that we do not appear to be assuming the role of the U. S. Immigration and Naturalization Service, since clients sometimes mistake us to be a Federal office. We hasten to inform them that we are a State service agency and our function is to assist them with their problems.

The various public and private agencies we must contact in behalf of our clients continue to be most cooperative, especially the Federal Immigration office in Boston and the U. S. Consuls abroad. Translation of clients' documents from French, German, Arabic, and Italian continues at a brisk pace. Clients who have problems in matters other than immigration or citizenship are referred to appropriate resources for assistance. We are continuing to benefit from the part-time services of employees provided by the Neighborhood Youth Corps of Lawrence.

The Lawrence office is a busy office but we do not feel overworked. The reason? We like people and enjoy serving them.

SPRINGFIELD

A total of 3630 recorded services were performed at Springfield for 2470 residents of the area served by this office. Persons came to us from 46 localities. In addition we had contact with individuals - former residents of our district whom we had reached upon their entry to the United States. These individuals reside in 54 localities throughout the country.

Of the 74 nationalities recorded, natives of Jamaica topped the list - followed by natives of Canada, United States, Italy, Greece, Poland, England, Portugal, Germany, and Korea. It must be noted that, since the Act of October 3, 1965, no longer do immigrants from the United Kingdom, Germany, and other countries of Northern and Western Europe appear as leaders.

One of the major functions of our entire department is to welcome to the United States and to our State particularly all persons admitted as immigrants. This past year 529 letters were sent to adults destined to reside in the four western counties of the State. Fifty-six of them were destined to Berkshire, 7 to Franklin, 439 to Hampden, and 27 to Hampshire Counties. Many accepted the invitation extended them by either writing or appearing at the office, seeking advice and assistance through the several services offered them.

The major portion of our work during the past year centered about the subject of Immigration. Interpreting the present law is not only time-consuming but very difficult. At times it is almost impossible to convince some citizens of northern and western Europe and natives of most independent countries of the Western Hemisphere that the requirements and

procedures have greatly changed since they came to this country. To many the present law appears to be unfair because it not only has numerically restricted people but has placed a more rigid requirement on persons who must obtain job certifications. Looking on the brighter side of the subject, the Fiance-Fiancee Act has been beneficial to some of our clients, especially to those past and present members of our Armed Services who had served in Vietnam, now anxious to have their spouses and children born out of wedlock join them in the United States.

An unusual case pertaining to citizenship required our special attention. It concerned a gentleman, 30 years of age, born in Canada, who applied for a certificate to prove that he was a United States citizen. During the course of events, the United States Immigration and Naturalization Service determined that, because of insufficient evidence and incomplete cooperation of his father, he was unable to establish his claim to citizenship and that, because there was no record of his entry to the United States, he was considered to be illegally in the country. He was referred to us for the purpose of assistance in making the necessary arrangements to obtain an immigrant visa. His claim to citizenship was based on the fact that his father was also born in Canada of a father born in the United States. Our applicant could not prove that his father had the required residence in the United States before he was born. We began handling this case on November 1, 1971 and brought it to a conclusion May 24, 1972 when arrangements were made for him to appear on that date before the American Consul at Halifax, Nova Scotia.

Many public and private agencies, schools, colleges, travel agencies, Armed Forces Recruiting Offices, and the United States Air Force Base constantly contact us for technical information and advice on citizenship and immigration.

We are pleased to express our thanks to both local and Boston offices of the United States Immigration and Naturalization Service for their full cooperation which is indeed beneficial to our clients.

WORCESTER

Non-immigrants, namely, the ones in the following categories: visitors, students, exchange visitors, temporary workers or trainees requested our advisory and form-filling functions more so than in other years. Assisting these persons, as well as numerous citizens and permanent resident aliens, accounts for the conglomeration of 5620 services for 3326 clients.

We've had more tourists from the Iron Curtain countries such as Poland, Lithuania, and Armenia but the sponsors have to complete special forms as the Polish or the Russian Assurance. The latter one requires us to mail it to Boston for the Russian wording and the Secretary of State Seal, and then to Washington, D. C. for the impressive looking U. S. Department of State Seal. The prospective visitor then deals with his own government for a passport and with the United States Embassy for a visitor's visa.

The Spanish speaking population in the city has increased considerably; therefore, we've had more friends and relatives visiting from the South American countries, Mexico and the Caribbean. We complete visitor affidavit of support forms for most of them.

The tourists enjoy their visits; therefore, we complete extension of stay applications for them to request up to six months' additional time. Students require an extension form each year for as many years as they pursue a full program.

As to be expected, the non-immigrants who like our way of life apply for permanent residence on the basis of employment certification or by marriage to a citizen or to a permanent resident alien. This, of course, necessitates several more forms for each individual plus time-consuming explanations of regulations, technicalities, and documentation involved.

After becoming permanent residents, our clients file for Declarations of Intention, and United States citizenship when they have the necessary years' residence, also sponsoring relatives or friends.

As may be deduced, it is quite a task to follow these procedural steps and forms, also explaining them to the individuals concerned. Scanning the Statistical Detail sheet gives further testimony to the various types and quantity of our endeavors.
